

## **PRAYER OF INITIATION**

May the spirit of the Elements engage us in a voyage  
of discovery with senses aware.

May the Fire of our spirit be inspired to reach for  
the richness of living.

May the Metal within our structure support the  
adventures worth pursuing, while the breath that  
nourishes us creates a lift and joy.

May the Water that flows through us and around us  
create an open voyage with a patient and faithful  
ebb and flow.

May the Wood that creates constant transformation,  
lead us with stability and grounding while  
nourishing our intuitive passion for adventure.

May we live with intention that keeps our highest  
goals in focus and our path clear.

May our compassion for others shine in all that we  
do and say.

May gratitude fill our heart and transform our love  
into a nourishing inspiration for others.

May our journey as one bring consciousness into  
focus such that nature and nurture walk in  
harmony. Let us journey together.
